

CC Technologies Pty Ltd

CCT SILVER ION TECHNOLOGY

Best Water

Experiment No. 28, E.coli inactivation

Best Health

Best Life

CCT Silver Ion Antibacterial Water System is unlike other conventional filtration systems, it does not just filter out dirt and microbes from the water, the water itself becomes an anti microbial with the ability to restrain microbes and prevent the re-growth of new microbes in the water if the water is stored for any length of time. Every time that tap water comes into a contact with a surface, instrument, area, person, it sanitises that contact surface.

Any site or situation where microbe contamination is an issue will find immediate benefits from using Silver Ion Antibacterial Water system.

CCT Silver Ion Antibacterial Water System is developed and manufactured in Australia with patent and it is approved by *Biological Farmers of Australia* to be used in organic production systems.

Anti microbial with the Natural Method

Silver Ion Antibacterial Water System Features and Benefits:

- ✓ ***Australian Made and Invented***
- ✓ ***Environmental Friendly***
- ✓ ***Antimicrobial Water***
- ✓ ***Non Chemical, Non Toxic and Non Hazardous***
- ✓ ***Restrain Bacteria and Reduce Bacteria Growth***
- ✓ ***Prevent Algae Growth***
- ✓ ***Safe for Human, Animals and Plants***
- ✓ ***Within Australian Drinking Water Standard***
- ✓ ***Accepted by (BFA) Biological Farmers of Australia***
- ✓ ***Within (WHO) World Health Organization Drinking Water Standard***
- ✓ ***Within (FDA) Food and Drug Administration Drinking Water Standard***
- ✓ ***Trade Mark Registered with IP Australia***
- ✓ ***Member of (AWA) Australian Water Association***
- ✓ ***Drastic reduction in the risk of bacterial food contamination***
- ✓ ***Easy to install and maintain***

SILVER ION WATER TREATMENT & FILTRATION SYSTEMS

Silver Antibacterial Water System		
Flow Rate (L/min)	Model No.	Application—Domestic / Commercial / Industry
26	ABWU1-A2-26	Households 3~8 people / Shops / Food Processing / Small Factories where both filtration & silver ion technology & programmable back wash facilities are required. Where flow requirements do not exceed 30 L/min.
30	ABWU1-A2-30	

Silver Antibacterial Water System		
Flow Rate (L/min)	Model No.	Application—Domestic / Commercial / Industry
26	ABWU2-A2-26	Households 3~8 people / Shops / Food Processing / Small Factories where both filtration & silver ion technology & programmable back wash facilities and stainless steel cabinet are required. Where flow requirements do not exceed 30 L/min.
30	ABWU2-A2-30	

Silver Antibacterial Water System		
Flow Rate (L/min)	Model No.	Application—Domestic / Commercial / Industry
12	ABWU0-R2-12	Households 3~8 people / Shops / Food Processing / Small Factories where both filtration & silver ion technology is required & flow requirements do not exceed 30 L/min.
26	ABWU0-R2-26	
32	ABWU0-R2-32	

Silver Antibacterial technology	
<i>Silver Antibacterial Unit</i>	
Model No.	Application
S1E-018-2PC1	Shops / Food Processing / Small Factories where filtration already exists or not required & flow requirements do not exceed 30 L/min.
C1E-018-2PC1	

Silver Antibacterial technology	
<i>Silver Antibacterial Unit</i>	
Model No.	Application
S2E-018-2PC1	Shops / Food Processing / Small Factories where filtration already exists or not required & flow requirements do not exceed 30 L/min.
C2E-018-2PC1	

Silver Antibacterial Technology	
<i>EMU(Enhanced Mineral Unit)</i>	
Model No.	Application—Domestic
EMU-D08-C	1~2 people, ideal for flats, villas & small households
EMU-C08-C	

Silver Antibacterial technology	
<i>EMU(Enhanced Mineral Unit)</i>	
Model No.	Application—Domestic
EMU-D15-C	3~8 people, ideal for houses where larger water usage is required.
EMU-C15-C	

Silver Antibacterial technology	
<i>Silver Antibacterial Cartridge</i>	
Model No.	Application—Domestic
SON-000-9NNO	Kitchen use only where filtration systems already exists, uses battery power –can be filled with 240V power pack
CON-000-9NNO	

Silver Antibacterial Water System	
<i>Bench Top Filter</i>	
Model No.	Application—Domestic
EMU-A2CP	Kitchen use only, suits Apartments / Renting families / where portability is required.

Silver Antibacterial Technology	
<i>ABU (Antibacterial Unit)</i>	
Model No.	Application
ABU-MF-C	Metal Working Fluid
ABU-CT-C	Cooling Tower
ABU-EC-C	Evaporative Cooler
ABU-AU-C	Amenities Unit
